

HAWS TODAY - bursting at the seams!

Cat Ward

The cat care areas are currently cramped and overcrowded - cats have overtaken dogs in popularity, but HAWS primarily served dogs when the shelter first opened. New, dedicated areas are needed for cats.

Dog Kennel

Large dogs and small dogs are currently housed together, causing unnecessary stress on smaller breeds. Dogs and cats also need separate medical service areas.

Small Animal Housing

Our shelter was initially constructed at a time when "pocket pets" were almost unheard of. Now, they comprise 10% of our resident population! They also have unique health and care needs.

SNIP (Spay-Neuter) Clinic

The success of our Spay-Neuter Initiative Program points toward the ever-growing need in our community for spay-neuter assistance, especially with outdoor/barn cat populations.

Customer Service Areas

On any given day our lobby is teeming with visitors - looking to adopt, attend a seminar, reclaim a lost pet...stop by on a Saturday afternoon - we're packed!

Behind the Scenes

HAWS uses every inch of space in our building for day-to-day operations. Mechanical rooms double as cleaning areas and storage is at a premium.
